

Chemical Economy & Engineering Review

January 1980—December 1980

January 1980 Vol. 12 No. 1 (No. 134)

Creating an Economic Union of the World and Regions: Beyond Interdependence in the Pacific Region	by Takashi Morimoto	7
Internationalization of Chemical Industry and Role of General Trading Firms	by Kazuo Kume	19
Changing International Economy and Engineering Industry	by Isao Maeda	22
China Chemical and Process Industry — Taking Off!	by Dr. O. P. Kharbanda	27
Oil, Gas Production and Chemical Industry in India	by Takeshi Chino	36
Wastewater Treatment in Coal Utilization	by Kawatetsu Chemical Co., Ltd.	41
Recovery of Potassium from Sea-Bittern as Potassium Fluosilicate	by M. H. Vyas, J. R. Sanghavi & D. J. Mehta	46

February 1980 Vol. 12 No. 2 (No. 135)

Energy Use in Steel Industry and Chemistry	by Tatsuo Hiratani	7
Recent Aspect of New-Resources for Chemical Industry		
—Petroleum, CO/H ₂ and Biomass Materials—	by Dr. Eng. Yoshihiro Watanabe	15
Research and Development of Energy Conservation Technology in Japan		
—Present and Future of Moonlight Project—	by Shunichiro Wakabayashi	23
The Petrochemical Industry in Turkey	by Ali Z. Tigrel	30
Decomposition of Egyptian Rock Phosphate by Nitric Acid	by M. Hussien	37
Part I Nitric Acid Acidulation of Phosphate Rock		
Part II Nitric Acid Decomposition of Egyptian		

Mahamid Rock Phosphate

by M. Hussien & S. Seif 39

March 1980 Vol. 12 No. 3 (No. 136)

Petrochemical Industry Development: Facing The Next Transition	by P. H. Spitz & Dr. S. Gomi	7
Trend of Japanese Petrochemical Industry	by Haku Izawa	17
IHI Gears Up Chemical Plant Construction and Engineering Operations — An Interview with Eiichi Kaneko, Deputy General Manager of Chemical Plants Division, Ishikawajima-Harima Heavy Industries Co., Ltd.		
How to Reduce Steam Cracker Capital Charges?	by Alfred Mol	29
The Hydrogen Induced Cracking Susceptibilities of Various Kinds of Commercial Rolled Steels under Wet Hydrogen Sulfide Environment	by F. Terasaki, A. Ikeda, M. Takeyama & S. Okamoto	37
Development of and Prospect for Resource-Saving Stainless Steels	by Masakatsu Sugimoto	48

April 1980 Vol. 12 No. 4 (No. 137)

World LNG Trade: Past Achievements, Current Status and Future Prospects	by M. W. H. Peebles	7
Imbalance of Essential Amino Acids		
An Approach to the Problems of Protein Shortage in the World		
Project Cost Overruns	by Kazuo Hoshiai	12
Current Standing of Korea's Petrochemical Industries	by O. P. Kharbanda & E. A. Stallworthy	17
Development History of Japanese Engineering Industry in Petrochemical Field	by Byongsik Jeon	21

— Experience of JGC Corporation —

24

Refineries and Petrochemical Plants

by K. Fujioka, T. Tahara & K. Fujita 43

May 1980 Vol. 12 No. 5 (No. 138)

The Evolution of the Energy Systems and the Aircraft Industry	by C. Marchetti	7
Imbalance of Essential Amino Acids		
An Approach to the Problems of Protein Shortage in the World	by Kazuo Hoshiai	
Part II Imbalance of EAA in Countries	14	
Part III Structural Aspects of EAA Imbalance	18	
A New Reverse Osmosis Membrane Made of Polyacrylonitrile	by Takezo Sano	22
Recovery of Sulfuric Acid from Organic Industries		
Part I Review of Methods of Disposal and Recovery of Waste Sulfuric Acid	by Dr. M. Hussien	28
International Operation Strategy Expanded by Chemical Processes		
—An Interview with Saburo Sasaki, President of Chisso Engineering Co., Ltd.	33	
Export of Qatar Gas to Japan Highly Probable: Ali Jaidah	35	

June/July 1980 Vol. 12 No. 6-7 (No. 139)

Raw Materials and Energy from Coal Gasification: The Ruhrchemie/Ruhrkohle Demonstration Plant Based on Texaco's Coal-Gasification Process		
by Dr. B. Cornils, Dipl.-Ing. J. Hibbel, Dr. P. Ruprecht, Dr. J. Langhoff & Dr. Durfeld	7	
Perspectives on Natural Gas and LNG in the 80's	by Akinobu Tsumura	12
6th International Conference and Exhibition on Liquefied Natural Gas in Kyoto		
Substantial Development Observed in LNG Technology	by Hiroshi Kuwahara	20
Starting the Decade of the 1980's and Another Fertilizer Cycle	by A. B. Phillips & J. Douglas	26
Mitsui Engineering & Shipbuilding Aims at Integrated Engineering in Heavy Industry		
—An Interview with Y. Ochi, General Manager of Chemical Engineering & Construction Hq.	30	
New Process for Fuel Oil Based Ammonia Plants		
Recovery of Sulfuric Acid from Organic Industries Part II	by M. Hussien & M. Hossam El-Din	37
Field Assembly of Large Pressure Vessels for		

August 1980 Vol. 12 No. 8 (No. 140)

International Trends in Sulfur and Outlook for 1979-80	by Dr. Raisaku Kiyoura	7
Changing International Distribution of Chemicals and General Trading Firms	16	
Trends of Industrial Chemicals Trade in 1979 and Prospects for 1980	by Fukutaro Magari	22
Production of High-Purity CO by MCC Process and Derivatives of Methyl Formate	by Takeo Ikarashi	31
Ethylene Production Capacity in the World	35	

September 1980 Vol. 12 No. 9 (No. 141)

Petrochemical Industry of the United States — Present and Future —	by Haku Izawa	7
Structural Change in French Chemical Fertilizer Industry	by Dr. Gene Gregory	18
Recent Development of Urea Technology	by T. Iojima, T. Kimura, T. Nagahama, M. Nobue & A. Fukui	26
New Process for 1,4-Butanediol via Allyl Alcohol	by Dr. M. Tamura & S. Kumano	32
Structural Material Carbon Fiber — Its Development Trends and Outlook	by Staff Writers	36
Development of Silicon Carbide Fiber Applications	by Junichi Tanaka	40

October 1980 Vol. 12 No. 10 (No. 142)

Catalysis and Chemical Industry in Future	by Yoshio Ono	7
Ethylene from Ethanol: New Process and Catalyst Developed by CTP and HTAS	16	
Niigata Engineering Expanding Into Offshore Operations		
— An Interview with Managing Director Furusawa	18	
Improve Steam Cracker Decision Making (Via Computer Time Sharing)	by Alfred Mol	22
Soviet Economic Trends and Chemical Industry	by Kazuo Ogawa	26
Trends in World Aromatics Industry and Prospects in Japan	by Michiaki Asano	32

December 1980 Vol. 12 No. 12 (No. 144)

51

Extraction of Egyptian Rock Phosphate with Ammonium Bisulfate Part III	by M. Hussien, Ph. D.	41
--	-----------------------	----

November 1980 Vol. 12 No. 11 (No. 143)

Internationalization of the Economy and Engineering Industry

by Nobuhiro Miyake	7
Technical Licenses in the Petrochemical Industry	
by Dr. Koichi Okano	18
General Trading Firms and Their Chemical Plant Marketing Strategies	
C. Itoh: Promoting Petrochemical Plant Exports	26
Marubeni: Financing — Key Role of Trading Firms	28
Mitsubishi: Technical Cooperation with Resource-Rich Countries Needed	31
Mitsui: Energy-Related Projects to Be Promoted	34
Sumitomo: Efforts Concentrated on Singapore Petrochemical Project	35

Toyo Menka: Promoting Plant Exports Through International Division of Work	37
Production of Nitrogen Adsorptive Separation	
by K. Niwa & T. Inoue	40

December 1980 Vol. 12 No. 12 (No. 144)

Prospects for Conversion of Coal to Gas and Chemicals in Britain: A Reappraisal

by Dr. J. Gibson	7
Trends in Natural Gas Supply and Demand, and Prices	
by Ryozo Hiwada	14
Expansion of Soviet Natural Gas Production and Steel Pipe Imports	
by Kazuo Ogawa	19
Recent Line Pipe Manufacturing Techniques and Products Quality in Japan	
by Yoshihiro Nara	24
Present State of Japan's LNG Projects	
by Staff Writers	33

Say SANFLOC flocculants wherever accelerated solid-liquid separation is required.

SANFLOC is a series of highly efficient, water-soluble, synthetic, organic, high-molecular-weight flocculants. They are useful in a wide variety of applications including winning of valuable minerals, treatment of industrial water and wastewater, sewage disposition, etc. where the separation of suspended solids from aqueous systems is required.

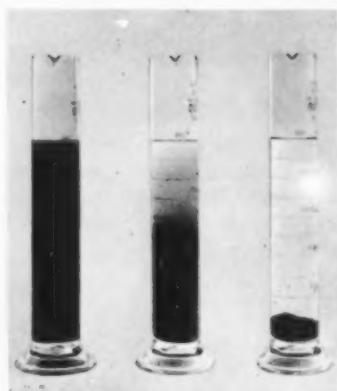

Anionic: AH-200P, AH-150P

AA-300P, AB-150P

Nonionic: N-50P, N-OP

Cationic: C-011P, C-511P

C-711P, C-911P

OTHER PRODUCTS

- Dehydration accelerators for wet ore concentrate
- Flotation frothers
- Emulsion breakers
- Various surfactants
- Non-flammable hydraulic fluids
- Brake fluid
- Lube oil additives
- Urethane foam polyethers
- Urethane resins for man-made leather
